

## **REMARKS**

In response to the above-identified Office Action, Applicant traverses the Examiner's rejection to the claims and seeks reconsideration thereof. Claims 4-7 are now pending in the instant application. In this response, Claims 1-3 have been cancelled, Claims 6 and 7 have been added and no claims have been amended.

The instant application provides a slot array antenna, comprising broadband slot antennas, wherein each of the broadband slot antennas includes, a dielectric layer under which a microstrip feedline is formed; a ground formed on the dielectric layer and electromagnetically coupled with the microstrip feedline through a slot; and a reflection plane placed under the microstrip feedline in order to prevent board surface waves from being radiated and enhance antenna gain, wherein a baffle layer is formed on the ground conductor in order to prevent mutual coupling between the slot antennas and enhance antenna gain.

### **I. Claim Amendments**

Applicant respectfully submits the attached Amendments to the Claims in which Claims 6 and 7 have been added. Claim 6 depends from Claim 4 and recites wherein the area of an entrance of the slot is the same as that of a bottom of the slot or area of the entrance of the slot is different from that of the bottom of the slot. Support for Claim 6 may be found, for example, in original Claim 2. Claim 7 depends from Claim 4 and recites wherein the reflection plane is a metal resonator. Support for Claim 7 may be found, for example, in original Claim 3. In view of the foregoing, Applicant respectfully submits the attached Amendments to the Claims are supported by the specification and do not add new matter. Applicant respectfully requests consideration and entry of Claims 6 and 7.

### **II. Claim Rejections – 35 U.S.C. §103(a)**

In the outstanding Office Action, Claims 1-3 are rejected under 35 U.S.C. §102(b) as being unpatentable over U.S. Patent No. 6,507,321 issued to Oberschmidt et. al. (“Oberschmidt”) and U.S. Patent No. 6,342,864 issued to Muramoto et. al. (“Muramoto”).

Claims 1-3 are cancelled in the instant response therefore the Examiner's rejections with respect to these claims is moot.

In regard to new Claims 6 and 7, Claims 6 and 7 depend from Claim 4 and incorporate the limitations thereof. The Examiner indicates in the Office Action that Claim 4 is allowed. Thus, for at least the reason that Claims 6 and 7 depend from an allowed base claim, these claims are not *prima facie* obvious over Oberschmidt in view of Muramoto. In view of the foregoing, Applicant respectfully requests consideration and entry of Claims 6 and 7.

### **III. Allowable Subject Matter**

Applicant respectfully acknowledges the Examiner's allowance of Claims 4 and 5.

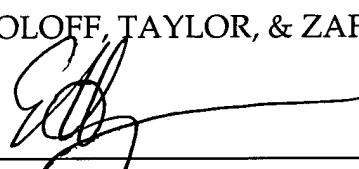

### **CONCLUSION**
